

CERTIFICATION OF RECYCLED CONTENT OF THE
RAW MATERIAL

Material Name: Recycled ABS

Please provide the information below regarding the above mentioned raw material provided by your business to Koozie Group:

1. Supplier Name and Address	[REDACTED]
	[REDACTED]
2. Name of raw material (e.g., extrusion grade polypropylene)	Recycled ABS
3. % of recycled content ¹ in the raw material (pre and post-consumer)	100%
4. % of Pre-Consumer material contained in the raw material ²	100%
5. Does the % of Pre-Consumer material claimed in Section 4 above include rework, regrind or scrap generated in a process and capable of being reclaimed within the same process that generated it? (e.g. spilled raw material and scraps from the original manufacturing process normally reused and would not normally enter the waste stream)	100%
6. Supplier and Location of Production of pre-consumer materials	
7. Type of raw material (e.g., deficient production materials (wide-spec))	production materials

¹**"Recycled content"**, according to the ISO 14021, means materials that have been recovered or otherwise diverted from the solid waste stream, either during the manufacturing process (pre-consumer), or after consumer use (post-consumer). To the extent the source of recycled content includes pre-consumer material, the manufacturer or advertiser must have substantiation for concluding that the pre-consumer material would otherwise have entered the solid waste stream.

²**"Pre-consumer material"**, according to the ISO 14021, means waste product of a manufacturing process, diverted from the solid waste stream and not normally reused by industry during the original manufacturing process. [B]y-products of a manufacturing process that normally are reused within the process and usually don't enter the waste stream are considered industrial scrap and don't count toward recycled content.

8. % of Post-Consumer material contained in the raw material ³	100%
9. Location of production of post-consumer materials contained in the raw material (state where recovered/diverted from, e.g., surplus car part trays obtained from XYZ company).	
10. If you color the material sold:	
% of color added to the raw material (% of color = gram of color / gram of material to be colored)	0%
Or % of color in the material sold	0%
FOR PAPER SUPPLIERS (INCLUDING SHIPPING CARTONS)	
11. Forest Stewardship Council (FSC), Sustainable Forestry Initiative	<input type="checkbox"/> Chain of Custody certification (FSC) Date of Certification _____ Valid until _____ <input type="checkbox"/> Chain of Custody certification (SFI) Date of Certification _____ Valid until _____
<p>I hereby certify that the information provided above is true. Supplier agrees to immediately notify Koozie Group in writing if any of the above information changes. Koozie Group may rely on the information contained in this certificate to prepare customer communications.</p>	
SUPPLIER Name _____ Name and title of authorized signer _____ Date _____ 2023-11-28 _____ Signature  Company stamp	
	

³ "Post-consumer material", according to the ISO 14021, means materials that have been recovered or otherwise diverted from the solid waste stream . . . after consumer use."
